AI SUMMARY

Strong senior PM with 7 years spanning digital banking and fintech. Led mobile product at Revolut-scale KSA banking app; previously BA at Cerved SpA with Italian public sector hospital exposure. Trilingual — a differentiator for EU-facing public sector engagement. Skill set closely matches the JD: Agile delivery, Figma, SQL, stakeholder management.

Gap note: No direct defence or government procurement experience. Recommend a brief screening call to validate public sector appetite.
